ECOLOGY AND ENVIRONMENT, INC.

DALLAS, TEXAS

MEMORANDUM

TO: Ed Sierra, RPO Region VI

THRU: K. H. Malone, Jr., FITOM *KHM*

FROM: Raymond Wayne, FIT Hydrologist *RW*

DATE: March 10, 1989

SUBJ: Leaking Drums Reported Near the AID Warehouse Site, Houston,  
Texas (TXD987966066)  
TDD# F06-8901-29  
PAN FTX0777PAA

In a conversation with the Texas Water Commission, the FIT was informed about drums which were leaking potentially hazardous waste into a ditch. The record of communication for this conversation is attached.

The leaking drums are located in the 12,000 block of Mykawa Road in an old industrial area of Houston. The AID Warehouse is at 7198 Mykawa Road and reportedly contains deteriorating drums of pesticides and other chemicals. The FIT has no evidence to suggest that the leaking drums came from the warehouse.
